

WEAPONS

THE ROLL

Attack = d20 + ability + training (if trained) vs. ARMOR

Damage = weapon die + material + ability

- **Training** → **the hit**. **Material** → **the damage**. Neither crosses over.
- **Crit (nat 20)**: double the dice; flat mods (material + ability) added once.
- **Fumble (nat 1)**: miss + a complication (drop weapon, hit ally for ½, prone, expose flank...).
- Min damage on a hit is **1**.

WEAPON CLASSES

Class	Die	Ability	Hands	Range
Light melee	1d6 (1d4 dagger)	Agility <i>or</i> Might	one	Close
Medium melee	1d8	Might	one	Close
Heavy melee	1d10	Might	two	Close
Ranged	1d4–1d10	Agility	1–2	Near/Far

Light melee: pick Agility or Might at creation, then fixed. Polearms/spears reach 2 squares.

EXAMPLES BY CLASS

- **Light (1d6 / 1d4)**: dagger (throw Near, conceal), shortsword, hand axe (throw), light mace/club, rapier (Agility-only).
- **Medium (1d8, Might)**: longsword, battleaxe, warhammer, mace, spear (throw; reach 2 = polearm).
- **Heavy (1d10, Might, 2-handed)**: greatsword, greataxe, maul, polearm / halberd / glaive (reach 2).

MATERIAL LADDER — METAL / STONE (adds to DAMAGE)

Gr	Material	Power tier	+Dmg	Price*
1	Iron	Apprentice 1–3	+0	10g
2	Steel	Apprentice 1–3	+1	30g
3	Dwarven	Veteran 4–7	+2	150g
4	Orcish	Veteran 4–7	+3	400g
5	Ebony	Master 8–10	+4	1,200g
6	Daedric	Master 8–10	+5	3,500g

*Two-handed ≈ 1.5× · daggers/slugs ≈ ½. Same ladder also governs HEAVY ARMOR (see Armor sheet).

REMEMBER

- **Material never touches the attack roll** — damage only. Keeps accuracy bounded (ceiling d20+9).
- Material grade is **mundane masterwork, not magic**. The material *is* the quality tier (no separate "masterwork").
- Materials track the party's **power tier** (loot + purse). A higher grade handed early = a deliberate treasure spike.
