

THE TWO CATEGORIES

Category	Material	Armor formula	Cast?
Light	leather / hide	10 + Agility + material	✓ all casting
Heavy	metal / stone	10 + Might + material	✗ blocks casting

- **No armor:** 10 + Agility (+ shield) — the naked glass-cannon classes (buy an extra pick).
- **Untrained armor:** disadvantage on Agility & Might rolls *and* no casting.

⚠ HEAVY ARMOR RESTRICTIONS

- **No ranged weapons** while worn — it's the melee line.
- **Set to Strike:** move + attack the same turn → attack at **disadvantage** (with a heavy weapon too → move or attack).
- Blocks all spellcasting. → Heavy = the planted melee anchor; light/none = mobile.
